Why don't you take a mindful moment this week? Take time to look at the changes in nature. Enjoy the beautiful colours of the season and breath the fresh autumn air.

Why don't you try...

Greenhill News

It was fantastic to see so many parents at our coffee morning forum with the CEO. We discussed things that we have done since our last forum, parents had the opportunity to talk to the myself and Mr Hughes and look at a variety of learning from across the academy. I have included the slides I shared at the end of the newsletter.

The word of the week was attendance. The children discussed why attendance matters and that 'every day counts'.

Oldham's New School Street in Lees

Published: Wednesday, 28th August 2024

Oldham Council is launching a new School Street at Hey with Zion Primary School and St Edwards RC Primary School in Lees this September.

This scheme aims to create a safer environment for local children by reducing traffic congestion and improving air quality during busy school times. It is the first scheme in Greater Manchester to use ANPR cameras for effective enforcement, setting a new standard for school travel in the region.

School Streets restrict motor vehicle access during drop-off and pick-up times, allowing children and parents to safely walk, cycle, or scoot to and from school. This reduction in traffic will enhance safety around the schools and contribute to a more pleasant atmosphere for the entire community.

The School Street will have a soft launch on Wednesday 4th September, where the new traffic measures will begin to be implemented, allowing parents and residents to adjust to the changes. The official complete launch is set for Monday 9th September, when the ANPR cameras will be fully operational. From this date, any parents or drivers who do not comply with the School Street restrictions will receive a warning letter. If they continue to ignore the rules after the warning, they will face a fine. This phased approach ensures everyone has time to adapt while reinforcing the importance of adhering to the new guidelines for the safety of the children.
