

Spring 1 Class 3 Year 1

Class 3 also had an exciting trip to Oldham library, looking at the things available to them in their community! They had a fantastic time looking at all that the library had to offer, reading and sharing books with their friends.

We loved performing the special harvest dance and learning more about the African culture.

Class 3 have had an exciting half term learning all about Africa! We even had the exciting opportunity to take part in a super African workshop, with some special visitors who taught us an African dance.

Did you know a baby lion is called a cub?

In maths we have been learning addition, subtraction and multiplication.

I loved reading lots of books in the library. We even got to take one home!

During our literacy and topic lessons we have been exploring a range of different African animals further. We learnt lots of super facts along the way!
