

Spring 1 in Class 5 Year 2

Class 5 have really enjoyed learning about Places People Go this half term.

In English we have created character descriptions, retells, newspaper reports and diary entries linked to the Mr Grinling books. We started lots of our learning off with drama to develop ideas around the characters, feelings and events.

I enjoy drama with my friends, it's fun

We worked as a team to sort all the different parts

In science we carefully pulled apart a plant to explore all the different parts and later on investigated exactly what plants need to grow proper.

We found different mountain ranges and seaside town using the atlases and thought about things we could do there.

We explored different cities including Barcelona, Rome and Paris and created our own persuasive posters.

I would love to visit Paris and see the Eiffle Tower

I can remember the story better after drama
