

Autumn 1 in Class 11 Year 5

The Battle of Bosworth was great! Especially when I was on Henry Tudors' side, the Lancastrians.

We helped organise a family football event to raise money for our school

Class 11 loved learning all about Tudor this half term! We enjoyed acting out the Battle of Bosworth and learning all about Henry VIII. We also enjoyed studying Romeo and Juliet over 4 weeks in our English.

Class 11 have really enjoyed learning French! Ask us how to say Hello in French.

Making our own games in curriculum week was great fun! We can now play them at wet play.

Using equipment in maths is really fun! It helps me to visualise what I need to do later in the week.

We have been learning all about 3D shapes in maths and using manipulatives to help us with division.

Autumn 2 in Class 11 Year 5

I have loved doing dancing this term! I liked the line dancing the best.

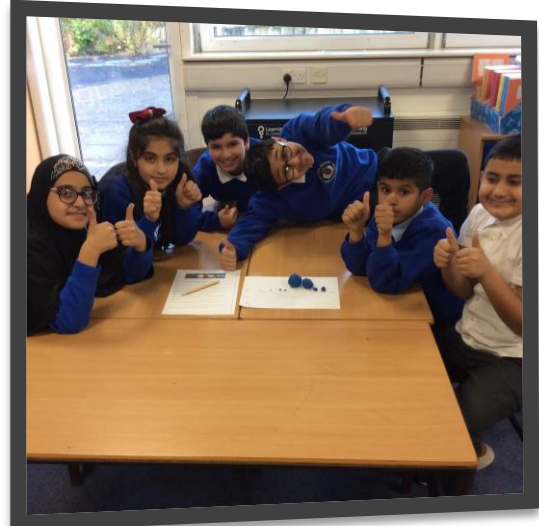

Class 11 have been learning all about North America in Topic, creating our own travel books. In PE we have been looking at different types of dance!

I enjoyed sharing my fable with Year 1.

We created our own fable, "How the Polar Bear Became White." We then invited class 4 to come and listen to our stories.

In science this half term we have been learning about space. We loved using plasticine to help us see the relative sizes of the different planets.
