

Be an Eco Warrior

I feel motivated to keep our school grounds looking nice.

Motivational

Our Eco Warriors plant seasonal flowers around the school, helping to attract butterflies and bees.

I feel proud that I help to keep the school tidy and that I can teach others to do the same.

Inspirational

I'm a bit scared of creepy crawlies but I persevered to get the job

Co-operative

We worked with outside agencies to build insect houses and to plant a vegetable garden to help with the school's Eco-system.

Our children are very eager to join the Eco – council and take the responsibility very seriously. They share their knowledge and understanding with the other children and encourage them to make our school a clean, safe place.
