

Be a volunteer

Confident

I have become a lot more confident with the rabbits and like looking after them.

Motivational

Inspirational

Even at home during a difficult and confusing time, our children continue to inspire and motivate others by volunteering to help each other with their home learning.

Our school rabbits need lots of looking after and the reception children are very good at volunteering to help.

Co-operative

Our children are very keen to help with the school's fundraising efforts and make us and themselves very proud.

My friends and I love volunteering to help. We get a lot accomplished when we co-operate with each other.
