SPRING 2021

Year 3 Teaching and Learning Newsletter

Messages

Well done to all the children learning at home. Keep up the good work. Thank you to all the parents supporting us in this. To all the children working in school – you are doing great. Thank you.

Reminder : when accessing Home Learning please **MAKE SURE** you **WATCH** the **HELP VIDEOS** before completing each activity **daily.**

Peek at our Half Term...

Maths					
What we already know *Count in 2s, 3s, 5s and 10s *The value of each number in a 3 digit number *How to order numbers to 1000 *How to add and subtract 3 digit numbers *Multiplication and division of 2s, 3s, 5s and 10s *To add and subtract amounts and give change	What we are going to learn *Count in 4s and 8s *Multiplication and division of 4s and 8s *Interpret and present data in tables and graphs *Measuring perimeter and length *Fractions and decimals *Time – to the minute. *Shape – angles and turns and symmetry *Addition and subtraction of 3 digit numbers.	Activities you can do at home Complete your Purple Mash homework weekly Daily TTRockstars. Work out the cost of items when you go shopping. Work out the change. Take every opportunity to tell the time. We do teach this at school but it will help hugely if you are doing this at home too. *Ask your child what they have learnt in maths and if they can explain it to you.			
Reading					
What we already know *Use a dictionary to work out the meaning of words *How to find answers in the text, looking for key words as clues *How to infer by reading around the text *How to use the different Domains to find more information in a test.	What we are going to learn *How to work out the meaning of unknown words *How to skim and scan the text *How to retrieve answers *How to read around the text to infer, thinking about 'it says, I say and so' *How to find evidence in the text to back up my answer *How to use a thesaurus	Activities you can do at home *Complete your Myon homework weekly *Read their class library and schoolbook and browse on Myon for other books *Read with an adult regularly throughout the week			
Writing					
What we already know *How to use – and, because, if, when, for - in our writing. *How to use commas, full stops, question marks and capital letters *How to include similes, alliteration and adjectives to add description. *To check our writing makes sense *To know the features of different	What we are going to learn *To make predictions about the books we are learning about. *To know the features of different types of text. *To use a range of punctuation in our writing - full stops, capital letters, commas questions marks, exclamation marks and apostrophes. *To think of interesting vocabulary to interest the reader *To use different sentence types to interest the	Activities you can do at home *Complete your writing homework weekly *Write for many different reasons – notes for your friends, stories, menus. *Practise your handwriting – you could get a handwriting pen if you join correctly and have your ascenders and descenders correct. *Read and read again. Everything you read feeds into your writing.			

	*To write poetry				
	*To write an Egyptian myth				
	*To edit and improve our writing.				
Science					
What we already know	What we are going to learn	Activities you can do at home			
*Naming and comparing materials	* To compare and group together different kinds of	*Investigate rocks around where you live,			
* To distinguish between an object	rocks on the basis of their appearance and simple	your garden.			
and the material it is made from.	physical properties	*Use BBC Bitesize to help develop your			
* To explain the materials that an	* To describe in simple terms how fossils are formed	understand of this science topic.			
object is made from.	when things that have lived are trapped within rock	*Collect 5 to 10 rocks – can you group			
* To name wood, plastic, glass,	* To recognise that soils are made from rocks and	them?			
metal, water and rock.	organic matter	*When you are out and about look for			
To describe the properties of		where soil can be found, is there different			
everyday materials.	#Thinking scientifically	types of soil?			
* To compare and group objects	* asking relevant questions and using different types				
based on the materials they are made from.	of scientific enquiries to answer them				
* Grouping and changing	* setting up simple practical enquiries, comparative and fair tests				
materials.	* making systematic and careful observations and,				
* To identify and name a range of	where appropriate, taking accurate measurements				
materials, including wood, metal,	using standard units, using a range of equipment,				
plastic, glass, brick, rock, paper	including				
and cardboard.	thermometers and data loggers				
* To identify the use of a range of	* gathering, recording, classifying and presenting data				
materials.	in a variety of ways to help in answering questions				
* To explore how shapes can be	* recording findings using simple scientific language,				
changed by squashing, bending,	drawings, labelled diagrams, keys, bar charts, and				
twisting and stretching	tables				
	* reporting on findings from enquiries, including oral				
	and written explanations, displays or presentations of results and conclusions				
	* using results to draw simple conclusions, make				
	predictions for new values, suggest improvements				
	and raise further questions				
	* identifying differences, similarities or changes				
	related to simple scientific ideas and processes				
	ix. using straightforward scientific evidence to answer				
	questions or to support their findings				
	#Year 3 – life cycle of plants				
	* To identify and describe the functions of different				
	parts of flowering plants: roots, stem/trunk, leaves				
	and flowers				
	* To explore the requirements of plants for life and				
	growth (air, light, water, nutrients from soil, and room				
# Year 1 - Plants- types, naming	to grow) and how they vary from plant to plant	*Complete a nature walk, what kind of			
and labelling	* To investigate the way in which water is transported	flowers can you spot?			
*To name a variety of common	within plants	*You could carry out a simple plant			
wild and garden plants.	* To explore the part that flowers play in the life cycle	experiment – grow two plants one in normal			
*To know the difference between	of flowering plants, including pollination, seed formation and seed dispersal.	conditions and one in the opposite, I.e. in			
deciduous and evergreen trees * To name the petals, stem, leaf	#Thinking scientifically	the dark, no water etc. Record your findings.			
and root of a flowering plant or	* asking relevant questions and using different types				
tree	of scientific enquiries to answer them				
* To name the roots, trunk,	* setting up simple practical enquiries, comparative				
branches and leaves of a tree.	and fair tests				
# Year 2 - How plants grow	* making systematic and careful observations and, where appropriate, taking accurate measurements				

		1
* To describe how seeds and bulbs grow into plants.	using standard units, using a range of equipment, including thermometers and data loggers	
* To describe what plants need in	* gathering, recording, classifying and presenting data	
order to grow and stay healthy	in a variety of ways to help in answering questions	
(water, light & suitable	* recording findings using simple scientific language,	
temperature)	drawings, labelled diagrams, keys, bar charts, and	
* To describe the impact of	tables	
changing these	* reporting on findings from enquiries, including oral	
	and written explanations, displays or presentations of	
	results and conclusions	
	* using results to draw simple conclusions, make	
	predictions for new values, suggest improvements	
	and raise further questions	
	* identifying differences, similarities or changes	
	related to simple scientific ideas and processes	
	* using straightforward scientific evidence to answer	
	questions or to support their findings	

What we already know Year 2 HistoryWhat we are going to learn * To use words and phrases like: before, after, past, present, then and now.What we are going to learn * To do own research, developing research skills - Use stories, pictures, books and people to find information about the past * To ask and answer questions To understand how to find out about the past * To remember information about a famous person from the past. * To remember things they did at different stages.Mat we are going to learn * What we are going to learn * To do own research, developing research skills - Use stories, pictures, books and people to find information about the past * To ask and answer questions To understand how to find out a famous person from the past. * To remember things they did at different stages.Activities you can do at home * Look at maps together of the local area and the world. Try to locate different stages.What we are going to learn * To use and interpret maps, globes, atlases and digital / computer mapping to locate countries and key features CC * To use an atlas by using the index to find places. To describe events from the past using dates when things happened. * To use a timeline within a specific period of history to set out the order that things may have happened * To use my mathematical knowledge to work out how longActivities you can do at home * Look at maps together of the local area and the world. Try to locate different countries and cities. * Can you find Egypt on the map? * Create a fact file about Tutankhamun. * Who was Howard Carter and why was he important?	Торіс			
Year 2 History* To do own research, developing research skills - Use* Look at maps together of the local area and the world. Try to locate* To use words and phrases like: before, after, past, present, then and now.stories, pictures, books and people to find information about the pastarea and the world. Try to locate different countries and cities.* To ask and answer questions To understand how to find out about the past* Use and interpret maps, globes, atlases and digital / * To use an atlas by using the index to find places. To describe events from the past using dates when things happened.* Create a fact file about Tutankhamun.* To remember information about a famous person from the past.* To use a timeline within a specific period of history to set out the order that things may have happened* Who was Howard Carter and why was he important?	What we already know	What we are going to learn	Activities you can do at home	
before, after, past, present, then and now.the pastdifferent countries and cities.* To ask and answer questions To understand how to find out about the past* Use and interpret maps, globes, atlases and digital / computer mapping to locate countries and key features CC * To use an atlas by using the index to find places. To describe events from the past using dates when things happened.* Can you find Egypt on the map? Research The River Nile – what interesting facts can you find out?* To remember information about a famous person from the past. * To remember things they did at* To use a timeline within a specific period of history to set out the order that things may have happened* Who was Howard Carter and why was he important?		* To do own research, developing research skills - Use	* Look at maps together of the local	
and now.* Use and interpret maps, globes, atlases and digital / computer mapping to locate countries and key features CC * To understand how to find out about the past* Can you find Egypt on the map? questions		questions		
Year 2 Geography * Use stories, pictures, books and people to find information	Year 2 Geography			
* To find where I live on a map of about the past - children doing own research	- · ·			
the United Kingdom * I know and can talk about stories from the past and pick				
* To name the capital cities of out different ways that they are shown sharing things that	* To name the capital cities of			
England, Wales, Scotland and were the same and things that were different	England, Wales, Scotland and			
Ireland. * To use sources of information in different ways to help me		-		
* To use compass directions and to answer questions about the past	* To use compass directions and			
directional language Use an increasing range of common words and phrases				
* To describe the key features of a relating to the passing of time	* To describe the key features of a	relating to the passing of time		
place from a picture using words * To use the correct geographical words to describe a place.	place from a picture using words	* To use the correct geographical words to describe a place.		
like beach, coast, forest, hill, * Name countries in the northern hemisphere.	like beach, coast, forest, hill,			
mountain, ocean. * Describe & understand climate, rivers, mountains,	mountain, ocean.	* Describe & understand climate, rivers, mountains,		
* To identify human and physical volcanoes, earthquakes, settlements, trade links, etc Nile.	* To identify human and physical	volcanoes, earthquakes, settlements, trade links, etc Nile.		
features * To recall facts about what happened in the past, important	features	* To recall facts about what happened in the past, important		
events, people and changes of the period I am studying				
* To give 3 reasons for important events and reasons for the				
Year 1 – Africa changes	Year 1 – Africa			
Year 2 – equator	Year 2 – equator			
Spring 1	·	Spring 1		
* Know where Egypt is on the map.		* Know where Egypt is on the map.		
* Know when in time Ancient' Egypt was				
* To know about the Nile flooding yearly and why that was				
important.				
* Know key characters from the past – Queens,				
Tutankhamun		Tutankhamun		

* To know who Howard Carter was and what he did and

devices, and that programs work by following these precise instructions.

* Create and debug (find and remove errors from) simple computer programs.

* Use logical reasoning to predict the behavior of simple programs. * Use technology to create, organise, store, manipulate and

retrieve digital content. * Recognise common uses of

information technology in the wider world.

* Use technology safely and respectfully, keeping their personal information private. * Know where to go for help and support if they are worried about anything they see on the internet or other online technologies.

* Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts * Use sequence, selection, and repetition in programs; work with variables and various forms of input and output * Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.

Activities you can do at home

Explore websites, getting use to using different browsers.

Have a go at using Microsoft Word. Have a go at using Microsoft Excel. Visit:

http://www.codemonster.io/ Have a go at some coding.

Handwriting

What we are going to learn	Activities you can do at home
*Recap all joins before we move on.	*Practice your handwriting regularly
*To join suffixes – ed, ing, y, ies, less, ful, able, est, tion	
*To join Common Exception Words	
	*Recap all joins before we move on. *To join suffixes – ed, ing, y, ies, less, ful, able, est, tion

Reminders:

Please keep your eye on the school website as well as checking the Home Learning and Class pages. Please read with your children at home as well as going on MyON and complete Purple Mash activities and TT Rockstars.

We are looking forward to this term. Remember, if you wish to speak to your child's class teacher, please ring the office to book an appointment. Mrs. Tomlinson, Mrs. Corcoran and Mr Rahman
